Dear Venue Operator

Notification

Telstra PSTN telephone line to carry Telstra ADSL Service to provide the Monitoring Services

Under clause 10.3(a) of the Venue Monitoring Services Agreement that you signed with Intralot Gaming Services (**IGS**) you are required to:

“ensure that there is at least one available communication (PSTN) line (free from any other internet service) at the Approved Venue capable of permitting IGS’s appointed telecommunications provider to connect the Monitoring Equipment located at the Approved Venue to the CMCS.”

IMPORTANT!

It is important that you take note of the following **IMPORTANT REQUIRMENTS** relating to the installed Telstra PSTN telephone line at your venue as any damage or interference with this line (unintentional or otherwise) **will adversely affect the continuation of your Monitoring Services and therefore game play on your EGMs:**

- You must maintain the Telstra PSTN telephone line with Telstra and not churn or transfer this service to any other carriage service provider;
- You must not use the Telstra PSTN telephone line for any other telecommunications service or internet service unrelated to the Monitoring Services; and
- You must keep the Telstra PSTN telephone line connected and remain financially liable for its upkeep (IGS pays for the ADSL Service that is carried on the Telstra PSTN telephone line).

Please do not hesitate to contact our **Help Desk on 1300 764 495** should you have any questions.

Yours sincerely

Arthur Baoustanos
Communications Director
