Dear Venue Operator

Notification – Coin Drop Adjustments

It has come to Intralot Gaming Services (**IGS**) attention through the Monitoring System that there have been an exceptionally large number of Coin Drop meter anomalies over the last month. In view of this situation, IGS in consultation with the VCGLR have agreed to make these adjustments on your behalf in those cases that such anomalies have been detected.

These adjustments will be done on an exception basis and does not in any way absolve you from your obligations as a Venue Operator to comply with the *VCGLR Accounting and Auditing Requirements*.

Please note that the adjustments that IGS is allowed to do on your behalf relate only to the Coin Drop meters and will not include any other EGM meter adjustments. All other financial adjustments including those that may involve other meter adjustments that affect the EGM tax (payable to the State) should be carried out by you, as the Venue Operator, according to the *VCGLR Accounting and Auditing Requirements*.

Please do not hesitate to contact our **Help Desk on 1300 764 495** should you have any questions.

Yours sincerely

Arthur Baoustanos
Communications Director
