

4 April 2013

Important Notification – End of Daylight Savings

Further to the IGS Newsletter Issue 2 - 21 March 2013, Eastern Daylight Savings Time will end on Sunday, 7 April 2013 at 3:00am. Eastern Daylight Savings Time (EDST) will revert to Eastern Standard Time (EST). This will take effect when the time changes from 3:00am (EDST) and 1 minute elapses and returns to 2:01am (EST).

To allow for the validation of Vouchers and Hand Pays, Venue personnel on shift should 'Sign Off' and then 'Sign On' on the microLOT payment terminal after the time reverts. No further staff intervention is anticipated for any IGS equipment.

If the microLOT is not Signed Off/On, prize payments will not be able to be validated.

Communication will be sent out at approximately 2.15am-2.30am EST and every half an hour then on until the network is in a satisfactory state.

IGS has also selected a number of Hotels and Clubs to make contact with to verify the change of time.

As instructed by the VCGLR, in the unlikely event that the time displayed on the EGMs in your Venue does not revert to EST, gameplay on EGMs can continue until the issue is resolved.

It is highly recommended that any Venue personnel needing to contact the IGS Help Desk prior to or on the morning of Daylight Savings End to use email as a form of contact via info2@igsmonitor.com.au

Regards,
