

28 May 2012

IGS at the 2012 Clubs and Hotels Australia Expo

IGS will be at Stand 184 at the 2012 Clubs and Hotels Australia Expo, held at the Melbourne Exhibition Centre on 19 and 20 June.

This is a great opportunity for venues to meet with Intralot Gaming Services (IGS) staff who will be at the information stand to answer questions on the new gaming machine monitoring system. Also on display will be the venue monitoring equipment that venues will have installed in their premises. The venue operators will have the opportunity to get a brief preview of some of the functionalities that will be available through iGEM, the new monitoring system.

IGS will make a presentation as part of the Expo seminar program. The presentation will focus on the roll-out of the new monitoring system. IGS's presentation will be made on both days of the Expo.
